Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicant's representative and the examiner discussed the difference between the on-chip emulator of the present invention and the on-chip emulator of Swoboda. The representative expressed that Swoboda's emulator is not contained entirely on the chip itself. The examiner expressed that Swoboda teaches emulator on the chip as well as off the chip. The examiner further expressed that since Swoboda does have at least part of the emulator on-chip that it does fulfill the claim language as currently written. .
